As an employee at LMU, you have the choice of two dental plans, the Core and Buy-Up Current Plans. Both are offered by Guardian and both use the DentalGuard Preferred Network.

Under both plans, if you choose a provider in the DentalGuard Preferred Network, you will see significant savings and discounts. Additionally, the provider's office will file a claim for you so there is no paperwork for you to fill out. To find an in-network dentist near you go to the Guardian website, www.guardianlife.com, and click on the "Find a Provider" link. Please be sure to consult either the online directory or Guardian customer service to confirm that your dentist is in the network. A covered person may be eligible for a rollover of a portion of unused benefit. See your certificate for details.

If you choose a provider not in the Network, you will have to fill out a Dental Transmittal Form after each visit and charges in excess of the 90th percentile of "usual and customary" charges will be your responsibility.

Dental services are divided into four classes- Diagnostic and Preventive, Basic, Major, and Orthodontia. Class I (Diagnostic and Preventive) includes services such as exams, cleanings, x-rays and fluoride treatments. Class II (Basic) includes fillings, simple extractions and repair and maintenance of crowns, bridges and dentures. Class III (Major) includes placement of bridges and dentures, crowns, implants, inlays, onlays and veneers. Services related to endodontics and periodontics fall under Classes II and III depending on which plan you choose. Some services will require prior authorization. Class IV (Orthodontia) is available for dependent children only up to age 19.
