- Identify the literacy challenges of diverse populations
- Design strategies to support the comprehension of complex text

Program Outcomes:

CI Candidate Outcome 3: The candidate designs and uses multiple methods and appropriate types of assessment to identify student learning needs and collaborates with other professionals to design instruction that supports all students in meeting rigorous learning goals.

InTASC Standard #8: Instructional Strategies
The candidate understands and uses a variety of instructional strategies to encourage
learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

III. Texts/Materials for the Course:

Required Reading: None

Suggested Readings:

Lent, R. C. (2016). *This is disciplinary literacy: Reading, writing, thinking and doing...content area by content area*. Thousand Oaks, CA. Corwin.

IV. Course Requirements, Assessment (Learning Outcomes) and Evaluation Methods:

Learning Outcomes: This graduate course addresses the three themes essential to the conceptual framework of the Lincoln Memorial University’s Carter & Moyers School of Education: **Values, Education**, and **Service**. Using **values** congruent with dispositions of the profession, candidates will actively apply coursework in the school and/or community environment. Throughout this course, candidates will engage in activities to extend their professional and pedagogical knowledge, along with applying, evaluating,
and reflecting on course content that contributes to continuous improvement of education practice. Another component is researching current standards-based instructional strategies that appropriately address diverse learning styles. This course emphasizes the goal of encouraging our graduates to engage in service to diverse student bodies, schools and communities by exhibiting and modeling professional behavior in the field that models integrity, fairness, and ethical decision-making which is in the best interests of all students and stakeholders. The ultimate aim in emphasizing these three themes is to produce educational leaders who reflect Lincoln Memorial University’s motto, Preparing Professional Educators of Distinction to Make a Positive Impact on This Generation and the Next.

Requirements (see Course Outline and Requirements section)
1. Reading and discussion of required materials. See related discussion guides
2. In-class writings
3. Any other readings or in-class activities that the instructor may assign
4. Group Projects: Groups will research assigned topics for presentation to the class.
5. Key Assignments: Each course includes two Key Assignments that are critical to successful completion of the course. Key Assignments are submitted via Live Text and will be assessed electronically by the instructor using a rubric. In addition to the Key Assignments, the instructor may require other coursework.

Evaluation Method: Assignments will be evaluated based on program standards using various assessment tools, including rubrics. The University Official Graduate Education grading system will be utilized.

ATTENDANCE
Cooperative and group learning are essential components of the MEd program. When class absences occur, students can make up for knowledge and skills by completing required assignments, but they are not able to make up for the knowledge and skills their participation in class would have provided to their own learning and to their fellow students’ learning. Therefore, even with successful completion of make-up assignments, class absences will cause a reduction in the final course grade. The first absence in a semester will not result in a reduction of final grade. The second absence will result in a reduction of one letter grade. Three absences will result in a final grade of C or lower. More than three absences will result in a grade of F for the course(s) taken that semester. Faculty will determine when circumstances legitimately cause a student to be tardy or need to leave a class early; however, a pattern of excessive tardiness or leaving early may affect grade. Students may not make up for an absence at another class site. Refer to the Graduate Catalog for further academic information and restrictions.

V. Methods of Instruction:
Instructional methods will include lecture, class discussion, reflection, collaborative assignments, group presentations, problem solving, and written assignments.

VI. Information Literacy/Technological Resources:
**Technology:** Incoming students must be computer literate, able to use software for e-mail, word processing, web browsing, and information retrieval. Students must have access to the Internet for communicating with instructors and accessing learning resources. **Computer access must be available on a personal computer.**

**Turn-it-in:** Turn-It-In, the computer program designed for checking literature duplication, is available for use. Submitting course work to Turn-It-In is at the instructor’s discretion. Instructions will be available early in the semester on the Graduate Education Office webpage.

**Live Text:** Each student will be required to establish or continue an account with the Live Text program. Live Text is a web-based application offering a comprehensive suite of development, management, and assessment tools. This suite of tools provides colleges and universities with the capability to assess student work online using assessment instruments that have been developed and implemented by the individual college faculty and/or departments. Specific instructions are posted on the school of education website found at www.lmunet.edu/education.

**Library Resources** (Revised 2/2/2012)
