*Fully accredited by the Southern Association  
of Colleges and Schools Commission of Colleges*

Ever wonder why we teach the way we teach? Or if there is a better way to help students learn in the classroom and the clinic, especially budding veterinarians? As with any educational endeavor, the veterinary professional's teacher is the most pivotal player in the quality of learning in the students' environment.

If you have interest in acquiring a teaching position in a veterinary program or just want to try out teaching as an adjunct, this degree will prepare you well.
