- 1. Download the SonicWall Global VPN Client for your machine here.
- 2. Double-click GVCSetup32.exe or GVCSetup64.exe
- 3. The Installation Wizard launches
- 4. Click Next to continue installation of the VPN Client
- 5. Close all applications and disable any disk protection and personal firewall software running on your computer. Click Next to continue.
- 6. Select I accept the terms of the license agreement. Click Next to continue.
- 7. Click Next to accept the default location and continue installation
- 8. Click Install to install the Global VPN Client files on your computer
- 9. Select Start VPN Global Client Automatically when users log in to automatically launch the VPN Global Client when you log onto the computer, if desired.
- 10. Select Launch program now to automatically launch the Global VPN Client after finishing the installation
- 11. Click Finish to complete the installation
- 12. Follow the screen capture instructions to complete the New Connection Wizard which has specific information for LMU.
