

Doctor of Physical Therapy (DPT)

The Doctor of Physical Therapy Program is an entry-level doctoral program preparing graduates for licensure in all states pending satisfactory performance on the NPTE exam and completion of the state-specific juris prudence examination. The program is under the oversight of the Commission on Accreditation in Physical Therapy Education which is a nationally recognized by the US Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA).

Every state in the United States including the District of Columbia, Puerto Rico, and the US Virgin Islands requires a license to practice as a physical therapist. Individuals with a physical therapy education from a CAPTE accredited program meet the educational standards required; however, other licensure requirements may vary from state to state. Individuals wishing to be licensed in the United States must become aware of licensure requirements for the state in which he/she would like to work.

The State Licensing Requirements should indicate if the program curriculum *Meets* the requirements in these states and US Territories or *Does NOT Meet* the requirement in these states and US Territories. For students coming from a state or territory that does not meet requirements, the student can only be admitted and enrolled if they sign an attestation that they plan to seek employment in another specified state.

List Disclosures by State

States & Territories	State Licensing Requirements?	Name, Address & URL of State Licensing Board or Department
