

## Veterinary Medical Technician (VMT)

Lincoln Memorial University discloses that the Associate of Science in Veterinary Medical Technology program fulfills the state/territory education requirements to allow the student to take the Veterinary Technology National Exam. A passing score on the VTNE is required in all states listed as “MEETS” to attain a license. In addition, states may require a jurisprudence exam to become licensed. Contact the AAVSB or state boards listed below for specifics on applying for licensure.

The State Licensing Requirements should indicate if the program curriculum *Meets* the requirements in these states and US Territories or *Does NOT Meet* the requirement in these states and US Territories. For students coming from a state or territory that does not meet requirements, the student can only be admitted and enrolled if they sign an attestation that they plan to seek employment in another specified state.
