Please note: The completer I was reviewing had excellent results because she is an excellent individual. Our district employs quite a few of your completers, as well as many from other programs, and my consistent impression is that the variation among them comes more from the personal characteristics they bring to the table than from differences in the education they've received.	1

Your program is top notch. I completed the Administrative add on program about 10 years ago. I highly recommend to everyone.	1

I think Educational Leadership shines through based on the educator and their experiences, more than the school from which they got their degree. I have no idea which school any of my colleagues went to, and most of them are fantastic! I am sure some went to UT, some LMU, and some online.	1
Dr. _____ is an asset to our school. She is well prepared for her role as academic coach.	1
