

PAs (physician associates/physician assistants) are licensed clinicians who practice medicine in every specialty and setting. Trusted, rigorously educated and trained healthcare professionals, PAs are dedicated to expanding access to care and transforming health and wellness through patient-centered, team-based medical practice.

To maintain their certification, PAs must complete:

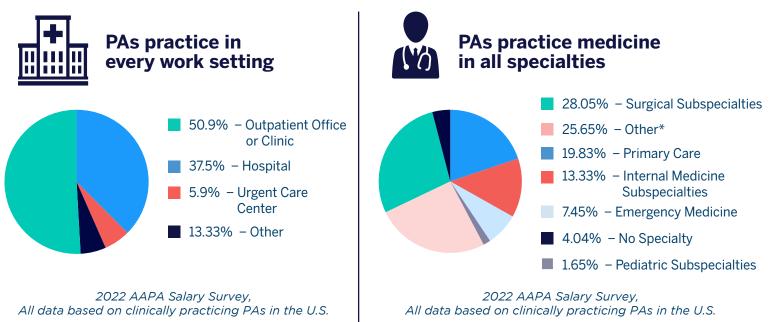

**100 hours** of continuing medical education (CME after every two years)

A recertification exam every 10 years

## **& LICENSING**

\*Other refers to a variety of work settings including but not limited to schools/universities, rehabilitation facilities, nursing homes and correctional facilities. \*Other refers to a variety of healthcare settings including but not limited to psychiatry, hospice and palliative care, obstetrics and gynecology, addiction medicine, pain management, public health and dermatology.

\*"Attitudes Toward PAs: A 2014 Survey by the American Academy of PAs." The Harris online survey was conducted September 15–22, 2014 among 1,544 adults age 18 and older living in the US, including an oversample of 680 adults who have seen a PA and/or have accompanied a loved one to see a PA in the past 12 months.
