LMU-CVM is committed to providing confident and competent veterinarians to the veterinary profession.

- Giving students the knowledge, caseload, skill set and hands-on experience necessary to make them confident and competent veterinarians upon graduation.
- Listening and responding to the needs of the veterinary profession and the public.
- Serving the health and wellness needs of people, animals and the environment in Appalachia and beyond with an emphasis on the One Health approach.
- Embracing compassionate veterinary care that values diversity, public service and leadership.

LINCOLN MEMORIAL
UNIVERSITY

6965 Cumberland Gap Parkway
Harrogate, Tennessee 37752

Location:

Approximately 55 miles north of Knoxville in Harrogate, Tennessee — where Tennessee, Kentucky and Virginia merge at the Cumberland Gap.

Campus:

The 1,000 acre LMU campus is one of the most strikingly beautiful campuses in the country.

Faculty:

Our faculty members are some of the most outstanding educators in the veterinary profession, and bring years of experience in veterinary education to the campus. Our course directors have distinguished themselves as exemplary teachers whose primary mission is the training of veterinary medical students.

Housing:

On-campus housing facilities are available for students in double occupancy, co-ed or apartment-style accommodations. There are also off-campus housing options.

Activities/Clubs:

Numerous on-campus organizations including professional and religious clubs, honor societies, student government organizations, special interest groups, veterinary specialty organizations, outdoor clubs and intramural sports clubs.

Admission Policy:

Lincoln Memorial University is an equal opportunity institution and welcomes applications for admission regardless of age, color, creed, disability, ethnic/national origin, gender, military status, pregnancy, race, religion, sexual orientation or any other class protected by applicable law.

Accreditation:

Lincoln Memorial University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, baccalaureate, master, and educational specialist degrees. LMU-CVM has provisional accreditation through the American Veterinary Medical Association Council on Education (AVMA COE).

Financial Aid:

Financial aid counselors are available to meet one-on-one. They will take the time to examine each individual financial situation, and help to generate ideas for the best funding solution for students.

VALUES BASED

“Thinking Globally and Acting Locally”

SERVICE TO PEOPLE AND ANIMALS

Mission: To prepare veterinarians who are committed to the premise that the cornerstone of meaningful existence is service to attain optimal health for people, animals and our environment. The mission of the LMU-CVM is achieved by:

- Graduating Doctors of Veterinary Medicine;
- Providing a values-based learning community as the context for teaching, research and service;
- Serving the health and wellness needs of people, animals, and the environment within both the Appalachian region and beyond with an emphasis on the One Health approach;
- Focusing on comprehensive veterinary health care in companion animal, equine health, production animal health and public health/comparative biomedical sciences;
- Investing in quality undergraduate and graduate academic programs supported by superior faculty and technology;
- Embracing compassionate veterinary care that values diversity, public service and leadership as an enduring commitment to the professionalism and the highest ethical standards.

“The College of Veterinary Medicine (CVM) is a state of the art institution with experienced faculty preparing veterinary students to excel in the world of modern healthcare. It has been very exciting and fulfilling to be a part of establishing LMU-CVM in this region where access to animal and human health care is so limited. I welcome you to join our team and be a part of making a difference in the profession and the world.”

**Glen Hoffsis, DVM, MS, DACVIM
Dean LMU-College of Veterinary Medicine**

Veterinary Medical Education

The four year Doctor of Veterinary Medicine (DVM) curriculum is based upon the philosophy of clinical immersion that recognizes medical knowledge must be developed side-by-side with clinical skills. With this in mind, hands on experiences with animals begin in the first semester for our students and continue throughout the entire curriculum.

The pre-clinical sciences are presented via a modified approach in which the relevant structure (anatomy) and function (physiology) are taught together. This method trains students the discipline of clinical reasoning or “thinking like a doctor”.

The Clinical Year Community Based Model provides our students real world, hands-on experience in addition to emphasizing the competencies needed, both technical and professional, to be successful in the profession upon graduation.

LMU-CVM Prerequisite	Semester Units	Quarter Units
Biology	8	12
Genetics	3	4
Biochemistry	3	4
Advanced Science Electives	8	12
Organic Chemistry	6	9
General Chemistry	8	12
Physics	3	4
English	6	9
Probability and Statistics	3	4
Humanities, Social and Behavioral Science	6	9
Electives	6	9
Minimum	60	88

CVM Facilities

Preclinical classes are taught in the Hamilton Math and Science Building, completed in 2012, which is the largest building on the LMU campus. The Math and Science Building also provides research facilities for our faculty and students.

LMU-CVM’s DeBusk Veterinary Teaching Center (DVTC) is located 12 miles from Harrogate in Ewing, Virginia. The facilities, housed on 700 acres, provide extensive hands-on experiences and educational opportunities with a wide variety of species.

- The DVTC is our “hands-on education site” where anatomy, clinical and surgical skills are taught for dogs, cats, horses, cattle and sheep.
- The Large Animal Component of the DVTC provides a “working farm” environment with a large herd of cattle.
- Veterinary research will be conducted at the DVTC and will offer students valuable experience in this important facet of the profession.

VETERINARY MEDICINE

Our Admission Philosophy

We are a private non-profit University. As a result there is no favoritism shown in tuition and/or the number of seats available based on a student’s home state.

- Holistic evaluation of academic and non-cognitive characteristics (resilience, work ethic, motivation, dedication and determination).
- Recognition that knowledge, skills and aptitudes for successful veterinary professionals are not exclusively predicted by a high GPA and/or GRE Score.
- Building each class as a team (comprised of talented and diverse individuals).
- Respecting and valuing the recommendations from veterinarians. Who knows better what it takes to be successful in this profession?

“Always bear in mind that your own resolution to succeed, is more important than any other one thing.”

Abraham Lincoln, 1855

Our faculty, clinicians and staff: working together as a team toward a common vision

At LMU-CVM we are fortunate and proud to have a highly skilled and experienced group of dedicated professionals embrace our mission statement. The quality of our college and University can be evidenced in our recent selection by the *U.S. News and World Report* as one of the Up-and-Coming Colleges for 2014.
